

DEREK WEI

San Antonio, TX | derekxwei@gmail.com | linkedin.com/in/derekxwei

U.S. citizen eligible to obtain a Secret security clearance.

5x CompTIA certified (CySA+, PenTest+, Security+, Network+, ITF+) · CTF competitor · preparing for the CPTS

SUMMARY

Incoming B.S. Cybersecurity Honors student focused on red-team fundamentals, penetration testing labs, and Capture the Flag competition, backed by five CompTIA certifications and hands-on security tooling. Nearly four years supporting cybersecurity labs and troubleshooting Windows and Linux systems, now preparing for the Hack The Box Certified Penetration Testing Specialist (CPTS). Blue-team literacy from CySA+ supports the offensive work by connecting findings back to defense. Seeking cybersecurity internships.

CORE AREAS

Web Application Security · Capture the Flag (CTF) · Digital Forensics · Open Source Intelligence (OSINT) · Network Analysis · Password Auditing · Penetration Testing Fundamentals · Security Tooling

CERTIFICATIONS

CompTIA CySA+ (2026) · CompTIA PenTest+ (2026) · CompTIA Security+ · CompTIA Network+ · CompTIA IT Fundamentals+ · Microsoft Office Specialist: Word Associate

Security+ and CySA+ satisfy the DoD 8570 Information Assurance (IA) baseline.

Certification roadmap (goals in progress, not earned) - In progress: HTB CPTS. Next: AWS Certified AI Practitioner. Planned: AWS Certified Solutions Architect - Associate.

EXPERIENCE

Cybersecurity Summer Camp Intern

Jun 2026 - Present

CyberTexas Foundation

- Guide students through hands-on cybersecurity exercises at St. Mary's University
- Support instructors during classroom and lab activities
- Troubleshoot laptops, Windows issues, software problems, network connectivity issues, and workstation failures
- Resolve real technical issues including blue screens, corrupted files, installation problems, and OS troubleshooting

Technical Support

Aug 2022 - May 2026

NEISD Institute of CyberSecurity and Innovation (iCSI)

- Provided technical support across Linux and Windows systems for students and staff in a cybersecurity program serving seven NEISD high schools, diagnosing hardware, software, and network connectivity issues
- Maintained the virtualized lab environments used for hands-on cybersecurity training: configuring virtual machines, restoring lab images, and clearing network issues so classes ran without interruption
- Authored and maintained technical documentation and troubleshooting workflows, standardizing common fixes for instructors and students

Founder, LearnLabs Educational Initiative

Jul 2023 - Present

- Provide tutoring and mentoring support to students, developing lesson materials and educational resources across a range of topics
- Research topics and refine instructional materials based on learner feedback; communicate with students and parents in English and Mandarin Chinese

COMPETITION EXPERIENCE

Competition experience includes National Cyber League, THEM?!CTF, BYU CTF, Hackerverse Cyber Games (EC-Council), RowdyCon CTF, CTF@CIT, Squ1rrel CTF, and CyberPatriot.

- National Cyber League (Team Difference, Spring 2026): 1st of 1,692 teams, High School division; 5th of 3,638, Standard Team division
- THEM?!CTF (Team idktheflag): 1st place | BYU CTF (Team idktheflag): 3rd of 566 teams
- Hackerverse Cyber Games (EC-Council), solo: 3rd of 72 players, reverse engineering

- RowdyCon CTF: 3rd of 85 teams | CTF@CIT: 25th of 759 teams

EDUCATION

The University of Texas at San Antonio (UTSA)

Expected May 2030

B.S. Cybersecurity, Honors College

MacArthur High School / NEISD iCSI

May 2026

High School Diploma - member of iCSI's first four-year cybersecurity graduating class

TECHNICAL SKILLS

Security: Vulnerability scanning, network traffic analysis, log analysis, incident detection and response, digital forensics, penetration testing fundamentals, cryptography, OSINT, password cracking, web application exploitation

Systems & tooling: Kali Linux, Windows, Linux command line, virtual machine environments, TCP/IP networking, Wireshark, Nmap, Metasploit, Burp Suite, hashcat, John the Ripper

Scripting & docs: Python, Bash, Git, technical documentation, Microsoft Word (MOS certified), Microsoft Excel

Languages: English (native), Mandarin Chinese (native/bilingual)

LEADERSHIP & ACTIVITIES

- Education Mentor, NEISD iCSI (2023 - Present): mentor incoming students and teach introductory cybersecurity topics in a hands-on classroom setting

- Class President, Reagan High School (2022 - 2024): led the officer team in planning class events, fundraisers, and student initiatives
