U.S. Citizen, eligible to obtain a Secret clearance

CYBERSECURITY INTERN

5x CompTIA Certified (CySA+, PenTest+, Security+, Network+, ITF+) · Ranked #1 of 1,692 teams, National Cyber League · Hands-on cybersecurity training, labs, and CTF competitor

SUMMARY

Incoming B.S. Cybersecurity student at the University of Texas at San Antonio (UTSA) with five CompTIA certifications earned in high school and nearly four years of hands-on IT support, cybersecurity labs, and capture the flag (CTF) competition. U.S. citizen, eligible to obtain a Secret clearance, currently pursuing the Hack The Box Certified Penetration Testing Specialist (CPTS).

CERTIFICATIONS

CompTIA CySA+ (2026) · CompTIA PenTest+ (2026) · CompTIA Security+ · CompTIA Network+ · CompTIA ITF+ · Microsoft Office Specialist: Word Associate

Credential verification: credly.com/users/derek-wei.f1a98326

In progress: Hack The Box CPTS · AWS Certified AI Practitioner

CYBERSECURITY COMPETITIONS

National Cyber League (NCL) Team Game, Team Difference

Spring 2026

- Placed 1st of 1,692 teams in the High School division and 5th of 3,638 in the Standard Team division
- Competed across cryptography, password cracking, digital forensics, log analysis, network traffic analysis, OSINT (open source intelligence), enumeration, and web application exploitation

Additional CTF Results

2026

- THEM?!CTF, Team idktheflag: 1st place | BYU CTF, Team idktheflag: 3rd of 566 teams
- Hackerverse Cyber Games (EC-Council), solo: 3rd of 72 players, reverse engineering
- RowdyCon CTF: 3rd of 85 teams | CTF@CIT: 25th of 759 teams

EXPERIENCE

Cybersecurity Summer Camp Intern, CyberTexas Foundation

Jun 2026 to Present

- Guide students through hands-on cybersecurity exercises at St. Mary's University, supporting instructors during classroom and lab activities
- Troubleshoot laptops, Windows issues, software problems, network connectivity issues, and workstation failures during live camp sessions
- Resolve real technical issues including blue screens, corrupted files, installation problems, and operating system troubleshooting

Technical Support, NEISD Institute of CyberSecurity and Innovation (iCSI)

Aug 2022 to May 2026

- Provided technical support across Linux and Windows systems for students and staff in a cybersecurity program serving seven NEISD high schools, by diagnosing hardware, software, and network connectivity issues
- Maintained the virtualized lab environments used for hands-on cybersecurity training, by configuring virtual machines (VMs), restoring lab images, and clearing network issues so classes ran without interruption
- Authored and maintained technical documentation and troubleshooting workflows, standardizing common fixes for instructors and students

EDUCATION

The University of Texas at San Antonio (UTSA)

Expected May 2030

B.S. Cybersecurity, UTSA Honors College

MacArthur High School / NEISD Institute of CyberSecurity and Innovation (iCSI)

May 2026

High School Diploma; member of iCSI's second four-year cybersecurity graduating class

TECHNICAL SKILLS

Security: Vulnerability scanning, network traffic analysis, log analysis, incident detection and response, digital forensics, penetration testing fundamentals, cryptography, OSINT (open source intelligence), password cracking, web application exploitation

Systems and tooling: Kali Linux, Windows, Linux command line, virtual machine (VM) environments, TCP/IP networking, Wireshark, Nmap, Metasploit, Burp Suite, hashcat, John the Ripper

Scripting and documentation: Python, Bash, Git, technical documentation, Microsoft Word (MOS certified), Microsoft Excel

Languages: English (native), Mandarin Chinese (native/bilingual)

LEADERSHIP AND ACTIVITIES

- Education Mentor, NEISD iCSI (2023 to Present): mentor incoming students and teach introductory cybersecurity topics in a hands-on classroom setting
- Class President, Reagan High School Class of 2026 (2022 to 2024): led the officer team in planning class events, fundraisers, and student initiatives
